

**DEAR PARENT,**

# We've Upgraded our Playground!

You may have noticed our newly updated outdoor play space - its been upgraded!

Studies show that nature play is a valuable and important part of childhood. Did you know children are **happier**, **healthier**, **more resilient**, and demonstrate better **academic outcomes** as a result of increased nature play?

We've invested in our outdoor space to provide high-quality, safe and meaningful nature-based learning experiences for your child.

Please let us know if you have any questions.

We look forward to offering your child more fun, sensory-rich and learning-filled outdoor time!
